

Transformation

Mr. and Mrs. Guy Folsom have transformed the old Jack Lee home on West Simmons St. into one of the prettiest in the community. The house has been thoroughly overhauled, painted, and redecorated inside and out. All of the seven rooms have been repapered, floors waxed and everything put in tip-top shape. The large front porch, well supplied with furniture, is an important feature of this attractive home.

BADLY DISAPPOINTED

Uncle Kinney Addison said he was a badly disappointed man. He bought a hunting license and when he read it he found that there was no open season on bear. He says that with this stipulation the license is practically worthless to him.

Zion Chapel And Ino Playing For Sunday League Championship

Zion Chapel and Ino will start a championship play-off Sunday as a climax to the season's schedule of games played by the Sunday Baseball League composed of ten rural baseball teams. In the preliminary play-offs the Zion Chapel team won two out of three from Babbie and Ino beat Cedar Grove two games to one. The championship series between Zion Chapel and Ino is creating a great deal of interest.

Funeral Services For Ralph Nelson Held At Pine Level

Former Elbian Takes Own Life; Lived In Columbus, Ga.

Ralph Nelson, 28, took his own life Friday morning, September 30, in Columbus, Ga., by shooting himself with a pistol, according to statement by members of the family. He was born and reared in Coffee County, residing on a farm between Pine Level and Bullock most of his life. He and his family and parents, Mr. and Mrs. Edgar Reynolds, moved to Columbus, Ga. about four years ago. Ralph was employed in a cotton mill and his father operated a store on the outskirts of the city.

Louie Bailey, uncle of the deceased, said that the elder Mr. Nelson said that his son came by the way to work and secured the key to the store, where he obtained a pistol and later shot himself through the heart. No motive has been reported.

Surviving are the parents, Mr. and Mrs. Edgar Nelson; the widow, child, two brothers and two sisters.

Funeral services were held on Sunday afternoon at Pine Level church conducted by the pastor, Rev. Lundy. Pallbearers were Tom Vaughan, Paul Key, Edwin Collins, J. T. Simmons, Edward Nelson and Harper Simmons.

Interment was in Pine Level cemetery with a Columbus Funeral Home directing assisted by Bonneau-Jeter.

Coffee County 4-H Clubs Make Plans For New Year

There are 36 4-H clubs in Coffee County which include both boys and girls. These boys and girls are the leaders of tomorrow and Extension workers challenge each parent to get behind the youngsters and help them in any possible way to fulfill their 4-H motto, which is "Make the Best Better".

This month the Coffee County Extension personnel are meeting with the principals and local leaders of each school to talk over the program for the coming year. We deeply appreciate the kind reception and the interest shown by the principals and the local leaders for the coming year.

The regular 4-H meetings will start in October. Program for the month for all boys is Soil and Soil Conservation. The program tells how nature put trees, grasses and weeds on the earth to protect the soil against erosion and how we are aware of the fact that man has disturbed many of the things that nature has done, therefore we must do something to replace the loss. When we dig peanuts right away to restore the nitrogen and other nutrients taken up by growing plants. Not only the legumes do this, but they also serve as a shield or an overcoat for the soil, protecting it against erosion caused by rain and other factors. During the month of October is a good time to plant the winter legumes needed to save and enrich your soil for next year's crop.

A cover crop does not always protect land from washing. On very sloping land terraces are needed also. Terraces slow down the running water to a minimum speed so it will run off slowly. This does not carry off as many soil particles as does fast moving water. Cover crops are needed even if you have terraces because they strain the water as it moves off the field, and they hold some of it up until it has soaked into the soil. Remember, too, they greatly improve the soil.

Former Elbian To Head M'tg'y Merit System

W. M. English Takes New Position October 16th

William M. English, son of Mrs. W. I. English and the late Mr. English, born and reared near Elba, was unanimously elected administrator of Montgomery's city-county merit system by the three member Merit Board Monday.

Mr. English takes over on Oct. 15 and resigned as superintendent of examination and recruiting in the State Personnel Department to accept. The new job pays \$4,800 a year, same as he received with the state.

The board was created by the 1949 legislature to take city and county jobs out of politics. Mr. English has served five years in his present position with the State. Prior to that he was an officer for three years at Maxwell Air Force Base.

Before entering military service in 1942, Mr. English was principal of Lanett High School for three years. He also taught in the schools of Conecuh County and Gadsden for 14 years. He and Mrs. English reside at 1104 South Hull Street, Montgomery.

Pvt. Harrison Goes To Lackland AFB

Pvt. Charles H. Harrison, son of Mr. Hubert Harrison, has reported to Lackland AFB, the "Gateway to the Air Force" to begin the AF basic airman indoctrination course there.

Lackland, situated near San Antonio, is the world's largest air force base, center of the Air Force basic training for airmen and women, indoctrination station for prior service enlistees and home of the AF's Officer Candidate school.

The thirteen week basic training will prepare him for entrance into Air Force technical training and for assignment in specialized work. The course will include a scientific evaluation of his aptitude and inclination for a particular vocation and career.

Food Establishments Must Get Permits

A. J. Baxley, County sanitation officer, announces that business establishments that handle food must get a permit from the County Health Department before a license will be issued. The licenses are due between October 1st and October 31st. The food permit must be presented when buying a license.

The Health Department will issue permits to those who are eligible during September and October. Included in those who must have permits are cafes, markets, drug stores, and curb markets.

Redbirds Wins Tri-C League Playoffs 3-2 Over New Brockton

The Elba Redbirds defeated New Brockton last Thursday afternoon on the New Brockton diamond by a score of 10 to 7 in a game characterized by heavy hitting by the Birds, 16 hits bouncing off their bats in the course of the games. Most of the 10 runs were earned. On the other hand, Gillson, on the mound for Elba, was effective and allowed only two runs until two men were out in the last half of the ninth. After delivering two strikes, Gillson was unable to find the plate and walked the batter. New Brockton followed with a scoring spree that netted five runs.

All the Redbirds seemed to have their eye on the ball and pounded it quite freely. Planted with onslaught with three doubles. Williams came through with a long triple. Other Birds hit hard and often.

The playoff was a belated affair having been postponed several times because of rain and the games. The best 3 out of five series ended a month after schedule with the following scores: At N. B.: N. B. 7, Elba 3—At Elba, Elba 4, N. B. 3—At N. B.: Elba 4, N. B. 3—At Elba N. B. 7, Elba 10, N. B. 7.

The Jewel Box Under New Management

It was announced this week that Mr. Dierker has accepted the interest of his former partner, Mr. L. F. Inman, in The Jewel Box. Mr. Inman has accepted a position with the Veterans Administration and will devote full time to his new occupation.

As manager of the Elba Theatre, Mr. Dierker has made many friends here who wish him every success in his new venture. He will continue his position with the theatre in addition to managing the Jewel Box.

An ad appearing elsewhere in this issue of the Clipper gives evidence to Mr. Roberts' aggressive business spirit. For the next few days he is featuring fountain pens, cigarette lighters, watches rings and other items at drastically reduced prices. He is stressing the lay-a-way plan for Christmas gifts, urging patrons to buy now and get their gifts paid for before the "holidaze squeeze".

Mr. Roberts plans to enlarge the stock in the immediate future and says he intends to provide Elba shoppers with a jewelry store that can supply all their needs. He expresses his thanks for past patronage and is eager to be of service in the future.

Messrs. Wendell Bryan and Clyde Rhodes will remain with the firm and suggest that you call them for any and all watch repairs.

Tigers Wreck Luverne 26-6; Play Opp Next

Improved Elba Team Gains 362 Yards; Farris Scores Two

Last Friday night the Elba Tigers rolled to an impressive 26 to 6 victory over the Luverne team on the Elba field. It was one of the best performances of the Tigers in several years. The Luverne team put up a strong resistance and made a fight of it all the way. For most of the third quarter they played the Tigers on even terms or even held a slight edge.

The Tigers touchdowns came on a one yard line buck by Conner, a deflected pass scooped up by Devane, a 35 yard run by Farris and a 65 yard run from a pass completed Flowers to Farris. Captain Farris led the Tigers by scoring two touchdowns and picking up 153 yards from scrimmage in 19 tries for an average of 8 yds each time he carried the ball. His first score came on a 32 yard run and the second on a 65 yard pass play completed in the flat on the Elba 35. He crossed the field, dodged several would-be tacklers and went over for the final score. It was one of the most beautiful runs of the year.

Conner was second in the ground gaining department for the Tigers. He picked up 100 yards in 17 tries for a six yard average. He executed several beautiful plays and scored the first touchdown on a one yard line buck climaxing a 68 yard drive to which he had contributed two gains of 12 yards each. Brunson and Flowers performed well in the blocking and defensive parts of the game. Brunson exhibited some of the best tackling shown this year. Brunson and Flowers passing was very good, but several of his perfect shots were muffed on the receiving end. His blocking also was above average.

The Tiger line was much improved, holding the Luverne team to a net of 91 yards from scrimmage while the Tigers got 362 yards. Elba led in the downs 17 to 7.

The Tiger foreward, Enzor, Farris, Johnson, Knight and Blue were charging through and repeatedly threw opposing backs for losses or small gains. They did much to stop the strong pass attack of Luverne by rushing the line. Some of his shots were hurried and some he was never able to get off. Their passing was dangerous and but for the good work of the line probably would have accounted for more scores.

Ends Arkison and Devane were better than in the Dothan game but Addison failed hang onto a couple of good passes. Devane scooped up a deflected pass in the end zone for Elba's second six points.

Substitutes were used quite freely in the latter part of the game. Harper, substitute guard looked very good on several occasions when he broke through and broke up several plays before they could get well underway.

The Tigers journey to Opp Friday night where they are slightly rated as underdogs in a contest with the Opp Bobcats, who defeated Florida 20 to 0 last week. Elba coaches feel that the Tigers can make a good game of it and have a good chance of pulling an upset if they can stop the passing of Nelson.

On October 14 the Tigers go to Enterprise.

OCTOBER

County Forester Advises Farmers

County Forester Jack Conway makes the following statement in regard to some of the practices being followed in cutting timber in Coffee County:

"I have noticed that much timber is being cut in the county without giving due regard to the saving of seed trees. This is a bad practice, because if enough seed trees are not left to reseed the land, the farmer will have to order seedlings and replant if he ever expects to have another crop of timber. I have also noticed a lot of timber that is being cut entirely too small. Now that is none of my business, but if the sellers will stop and think they will realize that the small trees are growing fast, and if the timber is cut selectively, there will be another cutting in a few years. Cutting the fast growing small trees is like killing the goose that lays the golden egg."

We have several farmers who planted seedlings and several more who placed their orders for fall delivery, and we are still taking orders. If you have some old land you have quit farming, why not set it to growing pines. They will stop erosion and will furnish income in later years when it's time to be badly needed. Our timber is going fast and if we don't practice good forestry and protect our forests against fire we will soon have no timber. Better timbering practices will preserve our trees and protect our game and fish. Keep fire out of your woods and keep everybody happy."

On September 16, 1915, the legislature passed the first law pertaining to desertion and non-support. The 1915 measure set up certain penalties against husbands for non-support of their wives or children, and conferred jurisdiction in such cases upon the probate courts.

Square Dancing Takes Firm Hold In New York City

NEW YORK—Square dancing, that beloved recreation of the rural areas, has taken a firm hold in New York City in the same way it has their rural counterparts—about the same way its charms are being "discovered" by the teenagers of the nation.

Last summer, 250,000 persons attended the square dances at three of the city's parks and playgrounds, and more than a half-million New Yorkers took advantage of a similar free program of social dancing conducted with popular bands in parks and playgrounds of the city's four more popular boulevards.

The square dancing programs usually go like this: A loudspeaker boom, a voice tells the dancers to form squares. The voice belongs to the callers—some one like Ed Durlacher of the Top Hands and one of the city's best callers. Ed's instructions are always larded with bits of salty humor. Before the two or the visitor can gasp out his surprise, he has acquired a pretty fair idea of some of the simple dances.

How Durlacher Does It

Take a typical Durlacher-called dance. Here's how it went: Durlacher alerted his dancers with a cowell and announced that "Honolulu Baby" would be the next dance.

"Put your partners," he intoned, "but don't get the horrors—just face them."

The seven musicians started playing. Durlacher began, "First gents to the right, circle, then hands around. Swing with the other fellow's lady. When you have swung go back where you belong and swing with your Honolulu Baby."

"Oh, you swing her around, you swing her up and down. Promenade with your lady. Your arm across her waist and you promenade to place—promenade with your Honolulu Baby."

The square dances, which are more popular this year than ever, also attract Walter S. Mack Jr., president of the company, which sponsors the square dances, and Mrs. Mack. Both watch the proceedings intently.

Elsewhere in the city thousands of couples who are not square-dance addicts take part in social dancing sponsored by another company in conjunction with the park department. Favorite band leaders, including Tommy Ryan, Sonny Dunham, Larry Clinton, Alvino Rey and Ray McKinley play nightly on weekdays in a project begun for service men in the war and continued at the request of the park department and by popular demand.

Baby Snake in Glove Decides Pennant Race

SALEM, N. H.—Many things have decided a baseball pennant, but St. Michael's baseball team has what may be the most unique claim for pennant-winning causes ever heard in baseball circles. For St. Michael's won the Lawrence scholastic league pennant because of a snake. Here's the story.

The Salem A. C. was leading, 4-2, in the seventh inning when Bruce Magoon was told by the Salem coach to go in and play shortstop.

Magoon picked a glove from underneath the bench and trotted on the field. The first St. Michael's batter singled. Then came a walk. The next batter hit sharply to short.

Magoon bobbled the ball and all hands were safe. The shortstop felt something in his gloved hand which he thought was a sponge. He pulled off the glove. Out popped a foot-long black snake!

Magoon protested but the umpire found nothing in the rules to change the situation. St. Michael's won, 4-2.

Kansas Sheriff Offers "Laziest" Title Entry

LAWRENCE, KAN.—Sheriff Will Lawrence has a candidate for "laziest man" title.

Deputies investigated reports that a motorist was blinking his lights to attract attention on a highway near here.

They found the motorist parked at the side of the road with a flat tire. The "laziest" driver explained:

"He wasn't enthusiastic about the hike to a nearby service station for help, so he blinked his lights hoping to get a passing motorist to stop."

"I wanted someone to call a garage for me," he said.

THE FOUR MODEL CARS, which were some of the top winners in the 1949 Fisher Body Craftsman's Guild competition, brought \$14,000 in university scholarships to the youthful designers pictured behind their models here. The boys and their scholarships are (left to right) Howard Assel, Canton, O. (\$4,000); Robert Ingram, Tallahassee, Fla. (\$4,000); Bert Ray Austin Texas (\$3,000); and Clair Smith, Jr., York, Pa. (\$3,000). Six other model builders winning scholarships were Ella Russoff, Detroit, (\$4,000); Robert Cili, Yonkers, N. Y. (\$2,000); Roger Teter, Elkins, Va. (\$2,000); Gate Morris, Portland, Ore. (\$2,000); Lew Jacobs, III, Fayette, Mo. (\$1,000); and Robert Meditz, Malverne, N. Y. (\$1,000). Boys may now enroll for the 1950 competition.

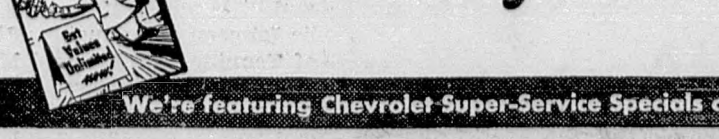

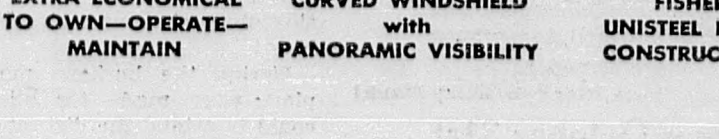

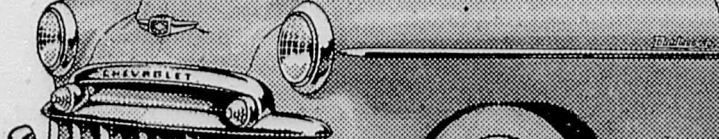

Carrollton, the county seat of Pickens County was named for Charles Carroll, one of the signers of the Declaration of Independence. One of Carroll's most distinguished sons of history was General John Hubert Kelly, of Confederate army fame. General Kelly was killed at the Battle of Franklin, Tenn.

It was in Dadeville's old Dennis Hotel that Johnson Hooper, while solicitor of the circuit, prepared his notes for his famous book, "Simon Suggs".

Judson College the well-known female institution of higher learning at Marion, was named in honor of Ann Hasseltine, wife of Adoniram Judson, the famous missionary.

Ukrainians Hold To Many Old Customs

Ukrainian churches, both Greek Orthodox and United, cling to the ancient Julian calendar, so their Christmas Day comes 12 days later than ours, or on January 6. Christmas Eve is celebrated with much traditional ceremony and festivity.

The Holy Supper or Sviata Veceera is very elaborate, consisting of 12 courses, in memory of the 12 apostles. Fish, baked, broiled and jelly, takes the place of meat. Horsch, or beet soup, is generally served, and stuffed cabbage, filled with millet or rice. Vareniks, some-

Man Some Day May Kill off Thunderstorm Start

LAKE SUCCESS, N. Y.—Man someday may kill off thunderstorms before they lash out with an "atomic bomb" punch in damaging winds, hail and lightning, according to Dr. Vincent J. Schaefer.

Even a small thunderstorm, he said, releases reservoirs of snow and get rain or snow at times where he wants it. Flying ice pellets may keep air lanes free of icing conditions. Or planes may shoot holes into dangerous clouds ahead.

All these are possible benefits from new studies of weather control by Dr. Vincent J. Schaefer, nearly three years ago found ways of producing snow or rain from certain clouds by seeding them with dry ice, silver iodide or water.

Snow or rain can't be brought down from any kind of cloud, any time. And there's no apparent way to break in drought when there are cloudless skies, or clouds with only a little water in them, he said.

MADISON, WIS.—Do you like to be fooled, tricked, caught on tricks, gimmicks and gadgets, or to cater to others by the use of such gadgets? If you do, you can find them along with a thousand other things, at Art Bruhl's magic and fun shop here.

Art, a professional magician, prefers shop keeping to a try at the big time with a road show or theater circuit, "mainly because in this business the customer is always wrong."

"Look," he says, "a customer comes in and asks for a simple trick. I work it for him, but I won't tell him how. He buys it anyway. See what I mean?"

"Not only that," he added, "but now that women have entered the field, this is the only field left solely to men."

It started 25 years ago, when Art was six years old. A relative gave him a magic set for a Christmas present, and "the idea just stuck." Now Art is listed among the top magicians of the country.

Once he gave a command performance for an Arabian shah. That was during the war when Art was stationed in Arabia with an army airways communications outfit. The shah had heard about the "astounding American who can make a man dead and bring him back again."

Art thought the shah was probably referring to hypnotism. Apparently he was, for Art was rewarded for his demonstration with a gold threaded headress, usually worn only by state dignitaries.

The story itself epitomizes the fine points of the flamboyant art of deception.

It started 25 years ago, when Art was six years old. A relative gave him a magic set for a Christmas present, and "the idea just stuck." Now Art is listed among the top magicians of the country.

Once he gave a command performance for an Arabian shah. That was during the war when Art was stationed in Arabia with an army airways communications outfit. The shah had heard about the "astounding American who can make a man dead and bring him back again."

Art thought the shah was probably referring to hypnotism. Apparently he was, for Art was rewarded for his demonstration with a gold threaded headress, usually worn only by state dignitaries.

The story itself epitomizes the fine points of the flamboyant art of deception.

Ukrainians Hold To Many Old Customs

Ukrainian churches, both Greek Orthodox and United, cling to the ancient Julian calendar, so their Christmas Day comes 12 days later than ours, or on January 6. Christmas Eve is celebrated with much traditional ceremony and festivity.

The Holy Supper or Sviata Veceera is very elaborate, consisting of 12 courses, in memory of the 12 apostles. Fish, baked, broiled and jelly, takes the place of meat. Horsch, or beet soup, is generally served, and stuffed cabbage, filled with millet or rice. Vareniks, some-

Man Some Day May Kill off Thunderstorm Start

LAKE SUCCESS, N. Y.—Man someday may kill off thunderstorms before they lash out with an "atomic bomb" punch in damaging winds, hail and lightning, according to Dr. Vincent J. Schaefer.

Even a small thunderstorm, he said, releases reservoirs of snow and get rain or snow at times where he wants it. Flying ice pellets may keep air lanes free of icing conditions. Or planes may shoot holes into dangerous clouds ahead.

All these are possible benefits from new studies of weather control by Dr. Vincent J. Schaefer, nearly three years ago found ways of producing snow or rain from certain clouds by seeding them with dry ice, silver iodide or water.

Snow or rain can't be brought down from any kind of cloud, any time. And there's no apparent way to break in drought when there are cloudless skies, or clouds with only a little water in them, he said.
